- REACT
- NODE.JS
- EXPRESS.JS
- JS
- HTML
- CSS
- DOCKER
- GITHUB
- TYPESCRIPT

LANGUAGES

- English (Fluent)
- Kinyarwanda (Native)

PROFILE

I'm a full-stack developer with a passion for building responsive, high-performance, and scalable applications from the ground up. I work seamlessly across both frontend and backend technologies, with a focus on JavaScript—primarily React and Node.js—to create impactful solutions. Whether it's developing a complex app from scratch or enhancing an existing platform, I love translating ideas into robust, real-world solutions that drive results.

WORK EXPERIENCE

ITS LTD
Full-stack developer
2024, APRIL - 2024, OCTOBER

- Contributed in the development of wowmall application, the company's shopping platform. I used Node.js on backend and React on Front-end.
- Collaborated with the team to develop the company's website, I worked on front-end side.
- Developed the backend of different client applications with node.js

DynaSoft ltd
